

# EXACTION SQUAD

---

## ADEPTUS ARBITES ENFORCEMENT UNIT

# EXACTION SQUAD OPERATIVES

It is the responsibility of the Adeptus Arbites to enforce Imperial law. Exaction Squads are formed from the most highly skilled and experienced Arbitrators. They are tasked with hunting down and securing the most heinous of criminals, returning them alive to face the full extent of the Emperor's justice.

2

## ARBITES PROCTOR-EXACTANT

Exaction Squads are selected and led by Proctors-exactant. These experienced Arbitrators are ruthless tacticians and savvy fighters. They are also intimidating embodiments of Imperial justice and employ nuncio-aquillas to broadcast deafening orations that cow the guilty into submission.

## ARBITES CASTIGATOR

It is the Castigator's role to ensure that the guilty receive due punishment, their hood-like helms steeling their resolve against curses and pleas alike. Once the quarry is located, the Castigator is charged with their subdual by any means – a task they perform with zealous dedication.

## ARBITES CHIRURGANT

These Arbitrators are highly skilled medical specialists, used to treating debilitating wounds inflicted by those resisting detention. They are also skilled in the tactical questioning of prisoners and have studied the limits to which the body can be pushed to elicit answers.

## ARBITES GUNNER

Gunners provide substantial firepower to Exaction Squad operations using weapons such as heavy stubbers – rapid-firing cannons whose solid shot can scythe through mobs. More specialist weapons may fire chemicals that paralyse, or grenades that crack open doors and armour alike.

## ARBITES LEASHMASTER

Leashmasters are specialists who command the caniform servitors known as Cyber-mastiffs. They direct override the construct's basic protocols with advanced commands, and broadcast shouted orders to their guilt-ridden prey via the Cyber-mastiff's emitters.

## R-VR CYBER-MASTIFF

Arbitrators employ many servo-constructs for intimidation, security and pursuit. The Rantal-class Venatus Reclamator is an advanced Cyber-mastiff used by Exaction Squads. The R-VR's detectors enable them to track their prey, while their iron jaws can break bones or kill on command.

**'INNOCENCE IS IRRELEVANT. YOU HAVE BEEN JUDGED GUILTY OF TRANSGRESSING THE LEX IMPERIALIS. DO NOT COMPOUND YOUR GUILT BY EVADING PUNISHMENT; AS THERE ARE GREATER CRIMES, SO ARE THERE GREATER SENTENCES.'**

- Arbitrator Mallox, Precinct 9 Reclamator

## ARBITES MALOCATOR

Technically gifted, Malocators carry bio-sample extractors to gather trace evidence on their team's quarry. They operate with an icy calm under fire, scrutinising evidence via their veriscent multi-lens array and informing their team of enemy weaknesses.

## ARBITES MARKSMAN

The rabble-rouser lurking behind those they incite, the heavily armed bodyguard or the fleeing criminal about to escape – such are the targets of the Marksman. Their long-barrelled shotguns fire shells so powerful that they leave wounds more akin to gory craters than bullet holes.

## ARBITES REVELATUM

Revelatums reconnoitre their target's movements in advance of the rest of the team, scouting hideouts and ascertaining criminal contacts. They then lead other Arbitrators straight to the guilty, using their soulguilt scanners to identify threats to their fellow officers.

## ARBITES SUBDUCTOR

Subductors possess one of the most recognisable – and feared – silhouettes to the Imperium's criminal classes. Bearing Subjugation-pattern assault shields and crackling shock mauls, they are brutal front line brawlers capable of crushing the most stubborn dissent.

## ARBITES VIGILANT

Vigilants brutally sweep the guilty from existence with the signature combat shotgun of the Adeptus Arbites. These grim men and women are ever-alert to malfeasance and unwavering in its punishment, unleashing devastating blasts at close range.

## ARBITES VOX-SIGNIFIER

The team's Vox-signifier listens for coded missives from mission command on their powerful precinct vox-relay. They issue updates to the rest of the Exaction Squad arising from changes to mission priorities and new intelligence – likely painfully extracted from prisoners.

# EXACTION SQUAD KILL TEAM

Below you will find a list of the operatives that make up a **EXACTION SQUAD** kill team, including, where relevant, any weapons specified for that operative.

# FACTION RULES

## MARKED FOR JUSTICE

Exaction Squads prioritise their targets, focusing their ire on those marked for immediate punishment before moving on to the next transgressor.

**STRATEGIC GAMBIT.** Select one enemy operative to be your mark for the turning point. Whenever a friendly **EXACTION SQUAD** operative is shooting against, fighting against or retaliating against your mark, that friendly operative's weapons have the Punishing weapon rule. Whenever your mark is incapacitated, you can select a new enemy operative to be your mark for the turning point (and can continue to do so during this turning point).

## REPRESS

Experienced in suppressing riots, rebellions and various other kinds of unrest, the Adeptus Arbites are resilient in the face of any oncoming foe, no matter their origin.

Some weapons in this team's rules have the Repress weapon rule below.

**\*Repress:** Whenever this operative is using this weapon:

- Each of your blocks can be allocated to block two unresolved successes (instead of one).
- If this operative is retaliating, you resolve the first attack dice (i.e. defender instead of attacker).

## RUTHLESS EFFICIENCY

A target, whether marked to be apprehended or eliminated, stands little chance of escaping the attention of an Adeptus Arbites Exaction Squad.

Whenever a friendly **EXACTION SQUAD** operative is shooting (excluding with frag or krak grenades) and you're selecting a valid target, you can use this rule. If you do, having other friendly **EXACTION SQUAD** operatives within an enemy operative's control range doesn't prevent that enemy operative from being selected.

# STRATEGY PLOYS

## GUILT REVEALS ITSELF

Exaction Squads are relentless in their pursuit of the condemned. Few escape their clutches.

Whenever you're selecting a valid target for a friendly **EXACTION SQUAD** operative, enemy operatives within 4" of it cannot be in cover (instead of 2"). While this can allow such operatives to be targeted (assuming they're visible), it doesn't remove their cover save (if any), unless the friendly **EXACTION SQUAD** operative is within 2" as normal.

## INVOLATE JURISDICTION

Emboldened by the authority they hold, Exaction Squads will fight with zealous determination to hold key positions against the foe.

Whenever an operative is shooting a friendly **EXACTION SQUAD** operative that's within 2" of an objective marker or an enemy operative, you can re-roll one of your defence dice.

## DISPENSE JUSTICE

In pursuit of the guilty, Arbitrators are focused, disciplined and utterly determined.

Whenever a friendly **EXACTION SQUAD** operative is fighting or retaliating, if it hasn't moved more than its Move stat during the activation, or if it's a counteraction, its melee weapons have the Ceaseless weapon rule.

## TERMINAL DECREE

A dangerous quarry has been judged guilty of heinous crimes against the Imperium and must be terminated with extreme prejudice.

Whenever a friendly **EXACTION SQUAD** operative is shooting an enemy operative within 6" of it, or whenever a friendly **EXACTION SQUAD** **GUNNER** operative is shooting, that friendly operative's ranged weapons have the Balanced weapon rule.

# FIREFIGHT PLOYS

## LONG ARM OF THE EMPEROR'S LAW

No one escapes the merciless judgement of the Adeptus Arbites.

Use this firefight ploy when a friendly **EXACTION SQUAD** operative is performing the **Shoot** action and you select a weapon with the Range  $x$  weapon rule (excluding frag or krak grenade). Until the end of that action, add 3" to  $x$ .

## EXACT PUNISHMENT

To strike against an Arbitrator is an offence punishable by immediate termination.

Use this firefight ploy after an enemy operative shoots against or fights against a friendly **EXACTION SQUAD** operative within 6" of it, and that friendly operative isn't incapacitated as a result. That friendly operative can immediately perform either a free **Shoot** or a free **Fight** action, but you cannot select any other enemy operative as a valid target or to fight against during that action (note that secondary targets from the Blast weapon rule can still be targeted).

## BRUTAL BACKUP

When combating the most belligerent of foes, Arbitrators may combine their considerable might to bludgeon the guilty with baton and maul.

Use this firefight ploy during a friendly **EXACTION SQUAD** operative's activation, before or after it performs an action. Select one enemy operative within its control range. One other friendly **EXACTION SQUAD** operative can immediately perform a free **Fight** action, but you cannot select any other enemy operative to fight against during that action.

## EXECUTION ORDER

Those who have earned the ire of the Imperium are marked by the Adeptus Arbites for execution, their termination prioritised.

Use this firefight ploy when an enemy operative performs a mission action (excluding **Operate Hatch**). Alternatively, use it at the end of the Firefight phase and select one enemy operative that controls an objective marker.

In either case, the next time your opponent activates that enemy operative, you can interrupt that activation and activate a ready friendly **EXACTION SQUAD** operative. If you do, during that activation, that friendly operative must fight against or shoot against that enemy operative, and cannot do so against any other enemy operatives until it does (if this isn't possible, that friendly operative's activation is cancelled).

After completing that friendly operative's activation, continue that enemy operative's activation (if possible). You cannot use this firefight ploy again until that enemy operative is activated or incapacitated.

Repression baton	3	3+	2/3	-

**Assault Shield:** If this operative has a dominator maul & assault shield, it has a 3+ Save stat.

### DEPLOY NUNCIO-AQUILA

DAP

- If your Nuncio-aquila marker isn't in the killzone, place it within 6" horizontally of this operative; otherwise, move your Nuncio-aquila marker up to 6" horizontally. If this operative is removed from the killzone, remove your Nuncio-aquila marker from the killzone.
- This operative cannot perform this action while within control range of an enemy operative.

### Nuncio-aquila:

- Whenever an enemy operative is within 3" of your Nuncio-aquila marker (or this operative if your Nuncio-aquila marker isn't in the killzone), your opponent must spend 1 additional AP for that enemy operative to perform the **Pick Up Marker** and mission actions.
- Whenever determining control of a marker, treat the total APL stat of enemy operatives that contest it as 1 lower if at least one of those enemy operatives is within 3" of your Nuncio-aquila marker (or this operative if your Nuncio-aquila marker isn't in the killzone). Note this isn't a change to the APL stat, so any changes are cumulative with this.

**Medic!**: The first time during each turning point that another friendly **EXACTION SQUAD** operative would be removed from the killzone as incapacitated while visible to and within 3" of this operative, you can use this rule, providing neither this nor that operative is within control range of an enemy operative. If you do, that friendly operative isn't incapacitated and has 1 wound remaining. That friendly operative can then immediately perform a free **Dash** action, but must end that move within this operative's control range. Subtract 1 from this and that operative's APL stats until the end of their next activations respectively, and if this rule was used during that friendly operative's activation, that activation ends. You cannot use this rule if this operative is incapacitated.

# FACTION EQUIPMENT

The following equipment options are available to **EXACTION SQUAD** kill teams, alongside the universal equipment online. You cannot select each option more than once per battle.

## MANACLES

These adamantine manacles prevent captive subjects from escaping custody.

Whenever an enemy operative would perform the **Fall Back** action while within control range of a friendly **EXACTION SQUAD** operative, if no other enemy operatives are within that friendly operative's control range, you can use this rule. If you do, roll two D6, or one D6 if that enemy operative has a higher Wounds stat than that friendly operative. If any result is a 4+, that enemy operative cannot perform that action during that activation/counteraction (no AP are spent on it).

## STROBING PHOSPHOR-LUMEN

The brilliant white, flickering light of this rotating lumen device has the effect of disorientating foes caught in its beam.

Whenever an enemy operative is shooting against, fighting against or retaliating against a friendly **EXACTION SQUAD** operative within 2" of it, your opponent cannot re-roll their attack dice results of 1.

## SPECIAL ISSUE SHELLS

Arbites shotguns can be loaded with a range of specialist ammunition, including but not limited to incendiary rounds and armour-piercing slugs.

Once per turning point, when a friendly **EXACTION SQUAD** operative is performing the **Shoot** action and you select a combat shotgun, executioner shotgun, scoped shotpistol or shotpistol, you can use this rule. If you do, select one of the following weapon rules for that weapon to have until the end of that action:

- Saturate.
- Piercing 1, but only if the target has a Save stat of 3+ or better.
- Torrent 1", but you cannot select more than one secondary target.

## REINFORCED MIRROR-VISOR

This armoured visor is designed to shield the wearer from blinding and disorientating weapons or devices.

You can ignore any changes to the APL stats of friendly **EXACTION SQUAD** operatives, and they aren't affected by enemy operatives' Shock weapon rule.

# EXACTION SQUAD: UPDATE LOG

Rules will be periodically updated to maintain fair balance and interact more smoothly with the game. Rules changes will be updated directly into online documents and then listed below. Any minor changes to standardise wording that don't have any practical impact on the rule will be updated directly into online documents but not be listed here.

This document has a version number; when this document is revised, the version number will be incremented and new updates can be found under that version's subtitle. Where a version number has a letter, e.g. 1.1a, this means it has had a local amendment, only in that language, to clarify a translation issue or other minor correction.
