---

## SPACE MARINE VANGUARD SPECIALISTS

# PHOBOS STRIKE TEAM OPERATIVES

2

Masters of stealth and subterfuge, Phobos Strike Teams consist of Space Marine Infiltrators, Incursors and Reivers. Possessed of transhuman strength and equipped with a range of explosives, communications equipment and precise weaponry, they are capable of outmanoeuvring and overwhelming enemy forces many times their own size.

## **INFILTRATOR SERGEANT**

Exemplar to their brothers; strategic and tactical leader of exceptional skill; deadly enemy to the Emperor's foes: the Infiltrator Sergeant must be all of these things, for it is by his words and actions that the Phobos Strike Team stands or falls.

## **INFILTRATOR COMMSMAN**

The Infiltrator Commsman acts as a strategic nexus upon the battlefield, a conduit through which vox-exchanges and intelligence inloads pass like lightning. The presence of such a battle-brother increases the strike team's versatility and swiftness of action.

## **INFILTRATOR HELIX ADEPT**

Operating as they do – far behind enemy lines without support – Phobos Strike Teams require the medicae support of Helix Adepts to get wounded battle-brothers back into the fight, and to reclaim the gene-seed of the slain for the Chapter.

## **INFILTRATOR SABOTEUR**

Carrying a deadly array of melta charges, super-krak munitions and even anti-plant canisters into battle, the Infiltrator Saboteur is well prepared to rig any target for destruction. This task completed, they fall back swiftly before triggering a blast like the Emperor's wrath.

## **INFILTRATOR VETERAN**

The most experienced Infiltrator battle-brothers stalk their enemies like armoured gheists, wielding weaponry selected from their Chapter's most rarefied armouries, each one augmented through the careful attentions of master artificers. So-armed, they can act as the nemeses of any foe.

## **INFILTRATOR VOXBREAKER**

The Voxbreaker makes war in both the physical and data-spectral realms. Not only does their specialised equipment allow them to scan and isolate enemy threats, but they can also break into the foe's communications and plunder them for strategic intelligence.

## **INFILTRATOR WARRIOR**

The Infiltrators who fight as part of Phobos Strike Teams are swift and aggressive in thought and deed, even by the standards of their warrior brotherhood. Few foes can long evade their pinpoint volleys or the bone-crushing blows of their armoured fists.

## **INCURSOR SERGEANT**

Tending towards aggressive and dynamic strategies, Incursor Sergeants lead Phobos Strike Teams in furious covert offensives that leave enemy command structures and logistical chains in tatters, ripe for planetary onslaught by a full-blown Space Marine strike force.

## **INCURSOR MARKSMAN**

As though the combination of a highly trained Space Marine and a potent mark of bolt carbine were not deadly enough, the Incursor Marksman employs his Divinator-class auspex to precognitively track where his targets will be, then places killing shots accordingly.

## **INCURSOR MINELAYER**

Some Incursors carry heavy haywire mines into battle, planting them at pre-cogitated nexuses of probable enemy movement. The electrophantasmic blasts of these weapons can banish machine spirits from enemy wargear and cripple augmetic enhancements.

## INCURSOR WARRIOR

Incursors are potent offensive skirmishers. They use oracular auspices slaved to their occulus bolt carbines to spot enemy targets, even through solid walls. They then press swiftly upon their foes' positions before engaging in bloody, one-sided firefights with the outmanoeuvred enemy.

## REIVER SERGEANT

Reiver Sergeants are masters of psychological warfare and terror tactics. Their remit is to wield their Phobos Strike Team like a scalpel, slicing apart the tenuous strands of enemy morale until the foe's forces are reduced to a nerveless and broken tangle.

## REIVER WARRIOR

Bursting from the shadows amidst vox-amplified howls, Reivers fall upon their horrified victims with pistols booming and blades swinging. As their foes reel from the disorienting blasts of their shock grenades, the Reivers make short and bloody work of their victims.

**'YOU SAY WE ARE BUT A HANDFUL OF WARRIORS FACING AN ARMY OF HERETICS. THAT WE CANNOT OVERCOME SUCH NUMBERS. WHAT YOU FAIL TO UNDERSTAND IS THAT EVERY SPACE MARINE IS AN ARMY IN HIS OWN RIGHT.'**

- Infiltrator Sergeant Justarian

# FACTION RULES

## OMNI-SCRAMBLER

Backpack-mounted omni-scramblers serve to disrupt enemy communications.

**STRATEGIC GAMBIT** If a friendly **INFILTRATOR** operative is in the killzone. Select one enemy operative visible to a friendly **INFILTRATOR** operative, or within 6" of a friendly **VOXBREAKER** operative. In the following Firefight phase, that enemy operative cannot be activated or perform actions until one of the following is true:

- Your opponent has activated a number of enemy operatives equal to the number of friendly **INFILTRATOR** operatives in the killzone when this **STRATEGIC GAMBIT** was used.
- It's the last enemy operative to be activated.

## TERROR

Dedicated terror troops, Space Marine Reivers utilise skull masks, shock grenades and vox-enhanced roars to terrify their victims.

Whenever an enemy operative is within 3" of friendly **REIVER** operatives, your opponent must spend 1 additional AP for that enemy operative to perform the **Pick Up Marker** and mission actions.

Whenever determining control of a marker, treat the total APL stat of enemy operatives that contest it as 1 lower if at least one of those enemy operatives is within 3" of friendly **REIVER** operatives. Note this isn't a change to the APL stat, so any changes are cumulative with this.

'I CANNOT EXPLAIN IT, MY LORD! WE SURROUNDED THE ASTROPATHS WITH ENOUGH SOLDIERS, HUNTER-SERVITORS, AND ENSORCELLED FORTIFICATIONS TO REPEL AN ENTIRE ARMY OF LOYALIST SCUM. THEY SHOULD NOT HAVE BEEN ABLE TO GAIN ACCESS EVEN TO THE OUTER SILO, LET ALONE ELIMINATING THE PATROLS OR DOING... WHATEVER THEY DID TO NULLIFY OURWARDS. THEY SHOULD NOT HAVE BEEN ABLE TO SLAY THE ASTROPATHS, LORD, IT IS IMPOSSIBLE! IT SIMPLY CANNOT BE!'

- Overseer Kalagath, excuses and last words to Iron Warriors  
Lord Orvodak Stonebreaker

## ASTARTES

These genetically modified superhumans are made for one purpose: war.

During each friendly **PHOBOS STRIKE TEAM** operative's activation, it can perform either two **Shoot** actions or two **Fight** actions. If it's two **Shoot** actions, a bolt weapon must be selected for at least one of them. A bolt weapon is any ranged weapon that includes 'bolt' in its name, e.g. marksman bolt carbine, special issue bolt pistol, etc.

Each friendly **PHOBOS STRIKE TEAM** operative can counteract regardless of its order.

## MULTI-SPECTRUM ARRAY

Feeding into the auto-senses of the bearer's armour, the multi-spectrum array's powerful augurs help to reveal hidden foes.

Whenever a friendly **INCURSOR** operative is shooting, enemy operatives cannot be obscured.

# STRATEGY PLOYS

## GUERRILLA WARFARE

Phobos Strike Teams utilise stealth and ambush tactics to overwhelm their foes, striking when least expected.

Friendly **PHOBOS STRIKE TEAM** operatives can perform the following unique action:

### GUERRILLA WARFARE

1AP

- ▶ Change this operative's order.
- ◆ An operative cannot perform this action while within control range of an enemy operative.

## AND THEY SHALL KNOW NO FEAR

Space Marines possess superhuman courage and are utterly unflinching in the face of terrifying horrors and overwhelming odds.

You can ignore any changes to the stats of friendly **PHOBOS STRIKE TEAM** operatives from being injured (including their weapons' stats).

## DEADLY SHOTS

Space Marines spend countless hours perfecting their marksmanship.

Whenever a friendly **PHOBOS STRIKE TEAM** operative is shooting during an activation in which it hasn't performed the **Charge**, **Fall Back** or **Reposition** action, or against an operative that isn't in cover, that friendly operative's ranged weapons have the Balanced weapon rule. Note that for the first requirement, that operative isn't restricted from performing those actions after shooting.

## LETHAL ASSAULTS

Space Marine warriors strike down their foes with incredible power and precision.

Whenever a friendly **PHOBOS STRIKE TEAM** operative is fighting, its melee weapons have the Balanced weapon rule. If that friendly operative is doing so during an activation in which it performed the **Charge** action, its melee weapons also have the Lethal 5+ weapon rule.

# FIREFIGHT PLOYS

## PATIENT AMBUSH

A Phobos Strike Team may lay in wait for hours, days or even weeks before launching an assault upon an unsuspecting enemy.

Use this firefight ploy when it's your turn to activate a friendly operative. You can skip that activation.

### CRITICAL SHOT

A well-placed bolt round can fell even the most resilient of foes.

Use this firefight ploy when you resolve a critical success for a friendly **PHOBOS STRIKE TEAM** operative that's shooting with a bolt weapon. Inflict D3 additional damage.

### TRANSHUMAN PHYSIOLOGY

The genetically modified physiology of a Space Marine is capable of resisting wounds that would kill a lesser being.

Use this firefight ploy when an operative is shooting a friendly **PHOBOS STRIKE TEAM** operative, in the Roll Defence Dice step. You can retain one of your normal successes as a critical success instead.

### STEALTH ASSAULT

The silenced servos of Phobos-pattern power armour allow a Space Marine to strike swiftly and overwhelm a surprised foe.

Use this firefight ploy when a friendly **PHOBOS STRIKE TEAM** operative that has a Conceal order is activated, is given an Engage order, performs the **Charge** and then the **Fight** action, and you're resolving your first attack dice from this activation. After doing so, you can immediately resolve another of your attack dice (before your opponent). The operative cannot have performed any other actions during this activation (but can do so after resolving this ploy).

**Tactical Advantage:** You can do each of the following once per battle:

- When rolling-off to decide initiative, if this operative is in the killzone, you can re-roll your dice.
- You can use a firefight ploy for OCP if this is the specified **PHOBOS STRIKE TEAM** operative (including Command Re-roll if the attack or defence dice was rolled for this operative), or the Patient Ambush firefight ploy for OCP if this operative is ready and not within control range of enemy operatives.

**Strategic Oversight:** In the Ready step of each Strategy phase, when you gain CP, if this operative is in the killzone and not within control range of enemy operatives, you can use this rule. If you do, roll one D6: on a 4+, you gain one additional CP.

**Comms Array:** Once per turning point, during a friendly **PHOBOS STRIKE TEAM** operative's activation or counteraction, before or after it performs an action, if this operative is in the killzone, you can change one strategy ploy you've used this turning point (it doesn't cost you any CP to do so).

**Medic!**: The first time during each turning point that another friendly **PHOBOS STRIKE TEAM** operative would be removed from the killzone as incapacitated while visible to and within 3" of this operative, you can use this rule, providing neither this nor that operative is within control range of an enemy operative. If you do, that friendly operative isn't incapacitated and has D3 wounds remaining. That friendly operative can then immediately perform a free **Dash** action, but must end that move with this operative's control range. Subtract 1 from this and that operative's APL stats until the end of their next activations respectively, and if this rule was used during that friendly operative's activation, that activation ends. You cannot use this rule if this operative is incapacitated.

### HELIX GAUNTLET

1AP

► Select one friendly **PHOBOS STRIKE TEAM** operative within this operative's control range to regain up to D3+3 lost wounds. It cannot be an operative that the Medic! rule was used on during this turning point.

◆ This operative cannot perform this action while within control range of an enemy operative.

**Plant Explosives**: This operative is carrying your Explosives marker. It can perform the **Pick Up Marker** action on that marker, and whenever it performs the **Place Marker** action on that marker, it can immediately perform a free **Dash** action.

\***Detonate**: Don't select a valid target. Instead, shoot against each operative within 2" of your Explosives marker, unless Heavy terrain is wholly intervening between that operative and that marker. Each of those operatives cannot be in cover or obscured. Roll each sequence separately in an order of your choice. This weapon cannot be selected if your Explosives marker isn't in the killzone. It can perform the **Pick Up Marker** action on that marker, but that marker cannot be placed within an enemy operative's control range (if this operative is incapacitated while carrying that marker and that marker cannot be placed, it's removed with this operative).

**Proximity Mine:** The first time your Haywire Mine marker is within another operative's control range, remove that marker, subtract 1 from that operative's APL stat until the end of its next activation, and inflict 2D3+3 damage on it; if it isn't incapacitated, end its action (if any), even if that action's effects aren't fulfilled. If it cannot be placed, move it the minimum amount to do so. Note that this operative is ignored for these effects (i.e. it cannot set it off or take damage from that marker).

# FACTION EQUIPMENT

The following equipment options are available to **PHOBOS STRIKE TEAM** kill teams, alongside the universal equipment online. You cannot select each option more than once per battle.

## PURITY SEALS

Awarded by the Chapter's Chaplains, purity seals are inscribed with blessings and inspire the bearer to fight with increased vigour.

Once per turning point, when a friendly **PHOBOS STRIKE TEAM** operative is shooting, fighting or retaliating, if you roll two or more fails, you can discard one of them to retain another as a normal success instead.

## ADDITIONAL UTILITY GRENADES

Some Space Marines opt to carry additional smoke grenades, shock grenades and other forms of hand-held explosives.

This equipment allows you to select four utility grenades from the utility grenades equipment (see universal equipment). You cannot also select that equipment as normal (i.e. to give you six).

## COMBAT BLADES

These blades are tough, thick and possess a razor-sharp cutting edge.

Friendly **PHOBOS STRIKE TEAM** operatives have the following melee weapon:

NAME	ATK	HIT	DMG
Combat blade	5	3+	3/4

## SPECIAL ISSUE AMMUNITION

Space Marine bolt weapons can be loaded with a variety of special ammunition.

Once per turning point, when a friendly **PHOBOS STRIKE TEAM** operative is performing the Shoot action and you select a bolt carbine, marksman bolt carbine or occulus bolt carbine, you can use this rule. If you do, until the end of the turning point, that weapon has the Piercing 1 weapon rule.
